## Community Language Plan

\* indicates a required field

### Vision and Objectives

Feedback from Aboriginal communities and the published literature on language revival tells us that one of the elements of a successful language Program is developing a Community Languages Plan.

A Community Languages Plan outlines the aspirations of the language organisation or group and the steps that will be taken to achieve them, including the resources and support required. This should include all languages revitalisation activity for your organisation or group, not just for the project you are seeking funding for.

An example Community Language Plan is attached [here](#) for your reference.

Please contact the Aboriginal Languages Trust if you require further detail.
